PROFILE SUMMARY

I am a passionate frontend developer transitioned from physiotherapy, I bring a unique perspective and skill set to the world of tech. With a strong foundation in HTML, CSS, JavaScript, React, and Git I am well-equipped to tackle complex challenges and deliver exceptional user experiences.

I recently completed the prestigious Meta Front End Developer course on Coursera, which provided me with in-depth knowledge of industry best practices and the latest trends in frontend development.

I am eager to apply my expertise and passion to contribute to innovative projects. Let's connect and explore how we can work together to build impactful, user-centric solutions.

Gujarat university, India Gold Medalist (University Topper)	

WORK EXPERIENCE

OWNER: RADIANCE PHYSIOTHERAPY

1.5 Years Jun 2020 – Nov 2021

- Successfully managed and operated physiotherapy clinic in India.
- Managed all aspects of clinic operations, including advertising, equipment procurement, patient diagnosis, treatment, scheduling, and finances.

STRENGTHS

Eager to learn new skills

As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set.

Calm under pressure

Working in a hospital environment taught me to stay focused in high-stress situations.

Collaborative

Working with multidisciplinary healthcare team taught me to be a team player.

CAREER TRANSITION

After working as a physiotherapist for several years, I realised I wanted a career that would challenge me in different ways and allow me to exercise my problem-solving skills.

When I moved to the Netherlands, I decided to switch to front-end software development. I was drawn to the dynamic and ever-evolving field of front-end development, which combines my fascination with technology and my passion for creating visually appealing and user-friendly interface.

- Recruited and trained two interns from a nearby medical university to assist with the increased workload.
- Implemented shadowing and reverse shadowing sessions to ensure ongoing patient care and intern development.
- Gained valuable skills in entrepreneurship, marketing, and patient care through this challenging and rewarding experience.

PHYSICAL THERAPIST: APOLLO HOSPITALS

6 Months Apr 2019 – Oct 2019

- Provided high-quality rehabilitative care to diverse patients, utilising modalities, manual therapy, exercise therapy, and aqua-therapy.
- Collaborated with a diverse healthcare team for integrated patient care.
- Utilised analytical and problem-solving abilities to evaluate patient's progress and modify treatment plans accordingly.
- Ensured accurate patient records, complying with healthcare regulations for seamless continuity of care.
- Actively participated in team meetings, providing insights on patient's progress and suggesting interventions.
- Played a key role in generating revenue for the hospital through package deals, enrolment in specialised programs, and proactive patient engagement.

PHYSICAL THERAPIST: HEALTH PLUS

10 Months May 2018 – Mar 2019

- Conducted comprehensive patient assessments alongside with head therapist and developed effective treatment plans focused on achieving therapy goals.
- Utilized manual therapy techniques, alongside a variety of modalities to alleviate pain, improve range of motion, and restore function.
- Managed a high-volume workload of up to 15 patients daily, providing individualized care. This experience honed my ability to prioritize tasks, and manage time efficiently.
- Developed and delivered ergonomic seminars, harnessing strong communication skills to simplify complex topics and convey information effectively to diverse audiences.
